WOMAN ESCAPES OPERATION

Was Cured by Lydia E. Pinkham's Vegetable Compound

Elwood, Ind.—"Your remedies have cured me and I have only taken six bottles of Lydia E. Pinkham's Vegetable Compound. I was sick three months and could not walk. I suffered all the time. The doctors said I could not get well without an operation, for I could hardly stand the pains in my sides, especially my right one, and down my right leg. I began to feel better when I had taken only one bottle of Compound, but kept on as I was afraid to stop too soon."—Mrs. SADIE MULLEN, 2728 N. B. St., Elwood, Ind.

Why will women take chances with an operation or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound? For thirty years it has been the standard remedy for female ills, and has cured thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, indigestion, and nervous prostration. If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Mrs. Pinkham at Lynn, Mass., for advice. Your letter will be absolutely confidential, and the advice free.

STORY WITH A GOOD MORAL.

National Magazine.

When Senator Hanna was walking through his factory in Cleveland some years ago on the lookout for new ideas or anything which would aid the progress of business he overheard a little red-headed lad remark: "Wish I had old Hanna's money and he was in the Poorhouse." The Senator returned to his office and rang to have the boy sent to him. The boy came to the office timidly, just a bit conscience-stricken, wondering if his remark had been overheard, and ready for the penalty. As the lad twisted his hand and nervously stood on one foot before the gaze of those twinkling dark eyes fixed on him by the man at the desk he felt the hand of Uncle Mark on his shoulder: "So you wish you had old Hanna's money and he was in the Poorhouse, eh? Suppose your wish should be granted. What would you do?" "Why," stammered the lad, "the first thing I would do, sir, would be to get you out of the Poorhouse." The Senator laughed and sent the boy back to his work. Today he is one of the managers of a large factory, but he never tires of telling the story that held his first job.

She was born in Ireland, and when a mere child came to this county, where she had since resided, living a life of a Christian and doing good to others.

She is survived by eight children, four sons and four daughters—Patrick and William Gantley of this city, John Gantley of Maysville, James and Miss Katie Gantley at home, Mrs. Mary Tierney of the county, Mrs. Agnes Manion and Mrs. Ella Manion of Maysville.

Funeral tomorrow morning at 9 o'clock from St. Patrick's Church, with services by Rev. Father P. M. Jones.

No. 5, Maysville, Ky., says: "I am only too pleased to tell of my experience with Doan's Kidney Pills and hope that it may be the means of helping other sufferers from kidney trouble to find relief. About five years ago my kidneys suddenly became disordered and for several months I was bothered by constant, dull pains across my loins. When I stooped or lifted, sharp twinges shot through my body and caused the most intense suffering. When I heard of Doan's Kidney Pills, I procured a box at J. Jas. GIRL IN JAIL

Fifteen-Year-Old Charged With Forgery at Flemingsburg

Irene Littleton, 15 years old, was placed in Jail at Flemingsburg Friday last, charged with forging the name of Frank T. Littleton of Fleming county, and with securing the sum of \$100 from the People's Bank of Flemingsburg on the alleged spurious paper.

The money was secured on three different checks presented within the past two months, the last one being paid at the Bank last Monday, when suspicions were aroused which led to the young woman's arrest.

The girl has been unable to give bond and says she did not know she was committing a crime in securing the money, as she admits she did. Her mother is said to live in Rowan county.

River 49.3—On a Stand

After reaching a stage of 49.3 feet the muddy Ohio came to a stand about 11 o'clock yesterday, and this morning at 7 o'clock the gauge marked 49 even, showing a fall of three tenths. The danger line had about been reached here, the water encroaching on several houses in Wall street and interfering with streetcar traffic in Bridge street. The receding of the river was hailed with delight by Front street residents in Aberdeen, who were apprehensive of their dwellings being inundated and forcing them out of their homes. The river will now continue to show a steady fall, and all danger of another flood is happily passed.

August Herrmann, as Chairman of the Committee on Science, Education and Relics of the Ohio Valley Exposition, has written to Pittsburgh to procure, if possible, a draft of the first steamer that made a trip down the Ohio and Mississippi rivers. The steamer was known as the New Orleans and left Pittsburgh in the early spring of 1810. She traveled as far South as New Orleans, reaching there in 1811. It was wrecked at Baton Rouge in 1819.

Captain John C. Oakes, Corps of Engineers, U. S. A., assumed charge of the Second Cincinnati District, which includes the works and improvements on the Big Sandy, Muskingum and Kentucky rivers. He succeeds Colonel James G. Warren, who for several years has had charge of the Ohio river and its tributaries. However, the latter have always been in a separate branch of the district, but after the promotion of Colonel W. T. Russell, Colonel Warren was placed in charge of both. Captain Oakes has been in charge of the harbor work at Galveston, Texas, for more than three years past.

Corn Meal for the Hair

A young lady dropped into the parlors of a Fifth Avenue hair specialist the other day, says The Beauty Magazine. The Frenchwoman in charge condescended to tell some of the secrets of the profession. "My pompadour treatment is the most successful thing in vogue," she said. "The hair is taken down, shaken out and wet with gasoline. It dries quickly, and when put up is found free from grease and dust. The gasoline should be used with the greatest care and never at night or in presence of a lighted gas jet or lamp. It takes a very few drops, the quantity depending on the color and the texture of the hair. With blond hair I follow this up with the cornmeal-brushing, a very coarse grade of yellow cornmeal being shaken on the hair and then carefully brushed out. It is astonishing to see how fluffy the hair appears after this treatment, and for days it remains in position, requiring no pins, puffs or braids." Asked what was the safest and best home preparation for keeping the hair healthy and restoring prematurely gray hair to its natural color, "Madame" spoke very highly of the liquid tonic and hair food known as HAY'S HAIR HEALTH. This preparation has been on the market over twenty years and can be found at all good drug stores in 50-cent and dollar bottles. Its great success comes from the fact that it nourishes the roots of the hair.

JUDGE CORNS CAUSES A CYCLONE

Says the Rose Local Option Law Is a Failure and They Are After Him

Cullumburg Tribune.

Judge Corns, it appears, has created a veritable storm of disapproval among the Prohibitionists of Ohio, or, more accurately speaking, the friends of the Rose Local Option Law of that State.

A few days ago he was asked to give his opinion as to the availability of that law, after having seen it tried in his own city of Ironton and elsewhere throughout the Southern section of the State. The Judge wrote quite an extended communication on the subject and when the letter reached the press it set the people wild with excitement. The Ministerial Association of Ironton went to work to prove that the Judge's statement was incorrect, while many of the newspapers in the Southern section began to deny the declarations of the Judge, and every since this public expression of the distinguished Jurist was made there has been a veritable pow-wow going on.

The Judge is an avowed Prohibitionist and believes that nothing short of universal Prohibition will succeed in suppressing the traffic in liquors, which from a philosophical point of view can be the only correct method of dealing with any form of alleged crime.

The Judge has been gravely threatened by the opponents of his belief and though he has shown himself to be both honest and brave—the kind of man needed for public trusts, it is gravely doubtful whether or not he may be able to succeed himself in office, should he desire to do so.
